PROFILE

An experienced programmer with a BSc in Games Design and Programming. Specialising in developing gameplay systems, and skilled at problem solving and conflict resolution, with a drive to bring my technical experience to contribute on industry projects.

EXPERIENCE

Society Manager

Staffs Idol Society

Staffordshire University SU 2025-2026

- Organised events both independently and in collaboration with other societies
- Represented the society at Union-run events
- Hosted weekly sessions to engage members and maintain regular activities
- Help plan and organised an end-of-year dance showcase

Lead Programmer

Nitro Has Passed

NHP - Drowsy Yokai 2025-2026

- Implemented and maintained version control workflows using GitHub
- Selected, organized, and delegated programming tasks through the project's Kanban board
- Coordinated regularly with design and art teams to discuss progress, align priorities, and address cross-discipline dependencies

Crew Member/Party Host

Laser Quest Stoke/Bromley

Laser Quest GB 2022 - 2026

- Catered and hosted children's birthday parties, welcoming guests, coordinating activities
- Ran Laser Quest games and VR experiences, as well as troubleshooting and resolving issues with any Laser Quest software

Technical Lead

All Hands On Deck

Staffordshire University Senior Collab 2026

- Reported to the producer on current progress
- Delegated programming tasks to meet with individual strengths
- Maintained project version control and code integrity using GitHub
- Communicated effectively across disciplines to coordinate technical requirements and resolve issues
